

## THE GREAT NAVAL REVIEW AT NEW YORK

The greatest assemblage of American warships in history will take place at New York from October 11 to 15. Besides 32 battleships there will be 94 other ships of war, including every class of armored cruiser, gunboat, hospital ship, transport, torpedo boat, destroyer, submarine and collier. These formidable vessels will be anchored in the Hudson river. New York will be in gala attire and its famous skyline will present additional attractions to the visitor.

The Baltimore and Ohio Railroad, with its terminals at Liberty st. and West 23d st., affords a most advantageous entrance to New York, with the river alive with every kind of craft that floats the seas.

The excellent train service from Washington—"Every Other Hour on the Odd Hour"—includes the most modern type of passenger equipment, with coaches and Pullman cars on all trains and a most excellent dining car service.

Representatives at the following ticket offices will be pleased to give any additional information as to program at New York, fares, train service, etc.

## YEAR'S WORK TODAY IN THE WORLD OF SOCIETY

### Annual Meeting of United Hebrew Charities Held.

### SEVERAL ADDRESSES MADE

President Baumgarten Says 900 Cases Were Relieved.

### PENSION ROLL IS REDUCED

Remarks Made by Judge De Lacy.

Officers for the Year Are Chosen.

The United Hebrew Charities of Washington held the annual meeting and election of officers for the coming year in the Eighth Street Temple last night. Nearly all of the members of the association attended, and a great many others who are interested in the work being carried on by the organization were present.

After the minutes of the last annual meeting were read by Rabbi Abram Simon, Mrs. Minnie Goldsmith, financial secretary, made her report for the year, and in a short speech told of the many evils corrected or mitigated, and the charitable deeds performed during the last year by the organization. She closed her address with an appeal for more liberal contributions from the members, declaring that the work could not go on unless the donations were increased.

Following Mrs. Goldsmith's address, Lee Baumgarten, president of the United Hebrew Charities, delivered an address, going into all phases of the work the association had attempted, the methods pursued in this work and the results accomplished. He declared the form of charity which consists of doling out dollar after dollar and accomplishing no permanent good, and said that the best way was that in which an intelligent effort was made to establish the recipient on a self-supporting basis.

### Ignorance Is Blamed.

Mr. Baumgarten said that a large proportion of the cases that came before the United Hebrew Charities for consideration were directly traceable to lack of education, and declared that poverty and lack of education went hand in hand always.

The president next went into the year's work in detail. He said that 900 cases had been relieved by the organization, and that more than 2,000 applicants, after being advised and consulted with on their individual cases, had been referred to the recipients of charity. The pension roll of the association, which formerly numbered fifteen, has been reduced to eleven in the year just past, and it is thought that three more will be self-supporting in a short time. Six persons received aid in starting in business for themselves during the same period, and only one failed to improve his condition.

The Washington Alliance of Jewish Women and the Child's Welfare Committee were publicly thanked by Mr. Baumgarten for their cooperation with the association. There are at present only two Hebrew boys in the school from Washington, two having been paroled.

The board of charities, through Secretary George Wilson, who was present, was thanked for relieving the association of a heavy burden in providing transportation for stranded families who were too poor to pay their own way home.

### Fewer Domestic Troubles.

The speaker quoted figures to show the decrease of domestic troubles in the last twelve months, and commended the police department and the courts in general for their valuable assistance to them during the year. The Juvenile Court, in particular, was commended, and Mr. Baumgarten was cheered heartily when he expressed the hope that the reapportionment of Judge De Lacy soon would be announced.

The Jewish Foster Home and the Atlanta Orphan Asylum were highly recommended by Mr. Baumgarten. He said that the work of the women engaged in the work of the first-named institution could not be too highly appreciated. The latter at present is caring for nine Washington orphans, Mr. Baumgarten said.

The speaker then turned to the work of the charities was quoted on, and its good results noted in the president's speech, and he also touched on child labor conditions in the city. He asked the aid of the government in providing a manual training school for girls, and asked the members of the organization to work to accomplish the ultimate erection of such a school. In closing, Mr. Baumgarten paid high tribute to the work of Mrs. Goldsmith.

### Officers Are Chosen.

Nominations for a board of fifty members to choose the officers for the coming year were made. Five or six names were offered and seconded, when David Wolf nominated the entire board which had chosen the officers last year. The motion was quickly seconded and adopted, and the meeting was adjourned.

The newly chosen board met directly after the adjournment of the regular meeting and re-elected all of the officers who served last year, with the exception of Mrs. Simon, who declined to act as recording secretary again. It was decided to leave the office vacant for the time being, as the association is considering engaging a regular clerk to attend to the increasing duties of the secretary.

### Fire Losses.

From the Chicago Record-Herald.

Fire losses in the United States and Canada for the eight months ending August 31 were \$163,790,650, against \$167,455,550 in 1911 and \$147,647,500 in 1910. The difference of about \$16,000,000 between this year's record and last year's should be encouraging to those who have labored for a better understanding by the public of means of preventing losses.

Our total, however, for any recent period is still far too great, and there is need of continuing the educational campaign against methods of building that result in disastrous fires, and against slipshod means of lighting fire. Eventually the country is to such permanent buildings as obtains in European countries, and he who builds wisely now or in the future will build wisely. It makes his plans for permanence rather than cheapness of construction. We must have also laws that place more justly responsibility for fires. The day of flimsy building is past for this country. Insurance rates are a tax on the community and the nation for which they are made. They should be lowered greatly for the United States and Canada through a record of smaller losses.

### Births Reported.

## UGH! NOT CALOMEL, OIL OR SALTS, BUT DELICIOUS "SYRUP OF FIGS."

Give your stomach, liver and bowels a thorough cleansing without gripe or nausea. Ends headache, biliousness, indigestion and constipation.

This wonderful fruit laxative acts as a liver and bowel cleanser—tonic—not as an irritant. Its action is natural and gentle—no gripping. It is delicious—no dreary, it is positive and prompt—no waiting.

If your stomach is sour and filled with vile gases, your head aches, or you are bilious, nervous, dizzy, half sick, your tongue coated, your thirty feet of bowels clogged with waste not properly carried off—don't wait. Surely take a teaspoonful of delicious Syrup of Figs tonight, and in the morning all constipated waste, sour bile, gases and poisons will move on and out of the system, gently, but thoroughly—no gripping, no nausea—no weakness. In the old days people let these matters run until they needed a large dose of physic, then they took something severe, like castor oil, salts or cathartics, that meant abuse to the bowels. These are the days of the gentle and natural—the days of Syrup of Figs. This way you are not dragging yourself. Syrup of Figs is a genuine, old-fashioned, of luscious figs, and aromatic, cannot cause injury.

Ask your druggist for "Syrup of Figs and Elixir of Senna," and look for the name California Fig Syrup Company on the label. This is the genuine—old reliable, the other so-called Fig Syrup is an imitation often meant to deceive you. Refuse such with contempt.

latter's oppression of the millions of Roumanians in Transylvania and elsewhere. In Servia, too, and in Macedonia there are other multitudes of Roumanians, and the government at Bucharest is no exception to the rule of cherishing an ambition some day to unite them all in a "Big Roumania."

There is thus some reason in the suggestion that in a general war Roumania would be found fighting on the side of Turkey, or at least against the enemies of Turkey, and it is obvious that if such were the case the influence on the course and outcome of the war would be enormous. Roumania is keeping her own counsel, but that does not mean that her
